

TWENTY-SIXTH YEAR

NO. 33

GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 2, 1932

SUBSCRIPTION \$2.00 PER YEAR

### NEW TREE PLANTING POLICY FOR THIS PROVINCE

Announcement of a new tree planting policy for Alberta, looking towards reforestation, is announced by Hon. R. G. Reid, provincial minister of lands and mines. Following assumption of control of the province's natural resources, and having in mind the influence of tree growth on soil drifting and moisture conservation, as well as the enhancement of the natural beauty of the countryside, the government believed it to be a duty to establish some foundation for reforestation work in the future.

Commencing next spring, free distribution will be made from stocks already established at Oliver provincial farm near Edmonton, of young White Spruce to farmers in the parklands belt who are making an effort to preserve the bluffs already on their farms. Spruce growth has been found to be successful in these bluffs. For the time being this will be the extent of the operation of the policy, though it will be expanded to include other important features of reforestation as soon as found practical and advisable.

There will be no conflict with the work of the federal forestry stations in the west, the province having in mind the larger object of re-establishment of coniferous growth in the parkland and prairie sections. With respect to the prairie section, the policy for the time will be confined to assisting municipalities and farmers to grow spruce and pine in wood lots already established and around lakes which are more or less community or holiday centres. Trees for this purpose will be supplied for cost of freight only.

A feature of the policy at present in mind is that there will be very little financial outlay, since the establishment of foundation stocks, which has already been done at Oliver to a considerable extent, is carried on with land available at the Oliver Institute, and with labor of patients, providing a very satisfactory form of treatment also for patients. There are now at Oliver some 800,000 Lodge Pole Pine in seed beds, and some 300,000 Spruce seedlings. More seed beds to be added next spring will provide more than a million trees.

The government is also doing something at Oliver in the way of experimenting with other tree growth, and already some 28 varieties in all are being tried out there, including those native to the province.

### QUEER QUINTON'S QUILL

"Now, that's over," said Quilla as she relaxed and sank dead weight into her corner of the chesterfield. And it was well that the old cat was not there at the time. But she had seen to that. That old scoundrel had again trespassed upon forbidden territory and was sleeping so soundly that he did not hear her coming. Nor was Quinton there to protect him. So his head was still ringing from the blow that Quilla had given him on the right ear.

No, it was 'the cat off the chesterfield' that was over for Quilla was not so very tired after the supper and program. Of course she wasn't what she used to be and even crowds bothered her now. But the younger folk had seen to it that she did not have to work so hard this year although her office and place of honor were still reserved for her. No, she wasn't so tired from her work but that old cat had got ahead of her again. The house had been shut up for five hours—she remembered that the clock had just struck half-past-five as they went out of the door and the clock hammer and Quilla's hand had made contacts precisely the same instant. It was then ten-thirty. And in all probability that old cat had been curled up there for most of that

time. But worse than that her blow aimed at his left ear had missed its mark. Old Tom had realized that there was danger, if not death, in delay and after his rude awakening made haste to vacate the vicinity. And that in itself was enough to make any human being say, "Now, that's over."

Quinton had left his wife at the door while he went over to a neighbor's with some dishes. Having returned he hurriedly removed his overcoat and came in to sit with Quilla and enjoy the fireplace just before they went to bed.

"And how did you like the lecture?" asked Quinton.

"Very well," was the modest reply. In reality Quilla's sides were a bit sore for the speaker had touched a strain of humor that strongly appealed to her.

"And somebodies," said Quinton, "radio can't take the place of having a man up there in front of you and shaking hands with him afterwards. Last year our Canadian Club brought in some splendid speakers and I hope they can do as well for us again this year."

"Yes, they did," said Quilla, "but just now I'd rather have my bed than any lecture. Come, let's go."

### POPPY CAMPAIGN

This year as in years past the sale of poppies for the Canadian National Poppy Day campaign will take place in Gleichen. The objects in the campaign are cited as follows: To pay tribute and bring again to memory of all citizens the men who sleep beneath the poppies in France, that due remembrance is shown in some tangible form on November 11th each year.

To provide employment for disabled ex-service men engaged by the government in Veterans' shops.

To create a small fund in the district where poppies are sold which can be applied as relief for any deserving case.

To help provide funds for taking care of genuine adjustment cases of widows and dependents and disabled returned men.

Another point to remember is the fact that every poppy and wreath sold is made by some disabled veteran.

### THRESHING ALMOST COMPLETED IN THIS DISTRICT

A couple of inches of snow fell last week holding up threshing for a time. Since then the snow has almost all disappeared. There is quite a bit of threshing yet to be done in this district which could have been completed in a term of three weeks if weather conditions had been favorable.

In spite of the fact that many delays have been experienced through wet weather, comparatively little damage has been done to the grain. Much of the grain is still grading No. 1 hard and No. 1. Some of it is grading No. 2 and No. 3. Some of the farmers are holding their grain hoping for higher prices, but very few are able to do this as all of them are compelled to sell immediately to meet their obligations.

Stock generally speaking is in fine condition and will enter into the winter in splendid shape. There is plenty of feed available in the district with an abundance of roughage and stubble pasturing available. The feed situation on the Blackfoot P. serve is also very good since a great deal of hay was put up during the summer months and cattle and horses will be able to rustle for a long time in the stubble fields.

A novel advertising whist party in aid of the rink will be held on Nov. 7th at 8:30. This will be an evening of great fun. A prize will be given to the person who brings the most people who have not yet attended one of these whist drives. There will be prizes by the dozen.

### News Items of Local Interest

Mr. Geo. H. Gooderham is addressing a men's luncheon at Cluny on Monday, Nov. 7th.

We noticed that Rev. V. M. Gilbert appears on the program of District 16 A. F. A. M. at their annual meeting held in Drumheller on Friday, November 4th.

The C. P. R. is offering special express rates on both live and dressed chickens to Calgary in this issue.

Miss M. Crawford spent the week-end visiting at the home of Mr. and Mrs. Chas. Thompson.

The Gleichen Flour Mill is now unning twenty-four hours a day to fill the demand for Beau Ideal Flour and other products made at the mill.

The whist drive put on by the Gleichen Women's Catholic League, last Thursday evening in the I.O.O.F. hall was very well attended. A most enjoyable evening was spent by all those present.

There is no class, community, or condition of society that is improved by waiting for outside assistance, for regardless of all talk about helping each other, the successful man or woman gets there only by helping himself.

Remembrance Day, Nov. 11, set apart as a separate holiday this year, will provide the last opportunity before Christmas for a long week-end holiday, and for the convenience of their patrons who desire to spend the day visiting friends in distant towns and cities the Canadian railways have arranged special fares for the week-end.

A large number of people attended the annual supper put on by the the Women's Association of the United Church Monday evening. After the supper Rev. D. Leitch of Drumheller delivered his famous lecture in the church, "Other People We Meet and Don't Want to Meet Again," which was thoroughly enjoyed by those who attended.

A school boy's composition on "The Editor," ran as follows: "The editor is one of the happiest men in the world. He can go to the circus in the afternoon and evening without paying a cent, also inquests and hangings. He has free tickets to the theatres, gets wedding cake (?) sent him and

### A BIT OF ADVICE

This is intended more for boys and girls attending school. Of course there is nothing in it to injure the adults. Many pupils attend school because they are supposed to. They have never taken time to think it out; they could not tell why they were attending school apart from the general reason that it has always been done. In later years they will find out the value of what they are doing today, especially if they do it well.

Perhaps we can illustrate this better by using an example. A short time ago a locksmith was sent for. He had to make a journey of three thousand miles to open an old safe in which were some documents of the utmost importance. All others had failed to unlock that safe, and yet this expert had it open in exactly fifteen minutes after he began work. His bill was not for fifteen minutes work. It included all his expenses and a generous fee as well. What is the application? Simply this: that locksmith knew all there was to be known about locks and combinations. A good many others who had tried to open that old safe and failed, knew a good deal, but they did not know enough. There were things they did not know brought about their failure. Pupils when they take

sometimes gets liked, but not often as he can take it back in the next issue, which he generally does. While other folks have to go to bed early, the editor can sit up every night and see all that is going on.

The boys of the Gleichen branch of the B. E. S. L. are putting on their annual dance Friday, November 11th, Remembrance Day. The boys invite all who can to attend this dance and they guarantee all a good time. It is hoped that there will be a profit after all the expenses of the dance is paid. Any surplus funds will be used for relief work.

The place that gives a man his living is entitled to his best efforts to advance everything calculated to benefit the place and the community. No man has a right to live in a live town who seeks to enrich himself and not actively identify himself with its interests. To be classed as a drone, or chronic kicker and opposed to every measure believed to be for the good of the citizens is a stigma that should attach to no man in the corporation. The improvements necessary to be made and the manner of making them a monument to the enterprise and intelligence of the citizens is the duty each person owes to the place in which he lives.

Saturday afternoon Cons. Batts accompanied by The Call reporter went duck hunting along the banks of the Bow river. They got a few ducks and running out of ammunition decided to call it a day and go home. Arriving at the car at 5:20 they got the surprise of their entire hunting lives with the most awe-inspiring sight they ever had the good fortune to look upon. Coming up over the rim of the high river bank bound for the grain fields to feed, was the van guard of ducks that were to follow. In a couple of minutes the birds began to come and then they came in an avalanche that lasted for fully fifteen minutes. The birds came on swarm after swarm till the air over head, about 50 feet up, was a mass of flying birds in uncountable numbers. They could be seen for several miles to the south where the sun had gone down. The column of birds was about a half mile wide with the two hunters standing about the centre of the flight. In the gathering gloom it was not possible to see very far to the north where the birds were coming from.

### INVESTMENT SAFETY IN THE NEW GOVERNMENT LOAN

The security behind the issue of new government bonds is in reality the integrity of the Canadian people and their undoubted determination to meet all their obligations as they mature. Nevertheless, it is worth while briefly to examine some features of the physical security which lies behind every Dominion of Canada Bond.

Unfortunately, the last figures on national wealth available in the 1932 Canada Year Book—an official government publication—cover the year 1929. Nevertheless, the fact is significant that the tangible wealth of the Dominion at that time, without including undeveloped natural resources, amounted to a figure equal to thirteen times the net public debt, excluding indirect liabilities such as the C. N. R. The \$80,000,000 which is now being floated will produce a net increase in the public debt equivalent to about one-sixth of 1 per cent of the figure at which the net tangible assets of the Dominion were carried three years ago.

Despite conditions during the last three years, the actual net debt of the Dominion was lower at the end of 1931 fiscal year than at the end of 1921, and on a per capita basis no less than 18 per cent lower.

The mineral production in 1931 was almost double the annual charges on the public debt. The Canada Year Book estimate of Canadian capital invested abroad since equals more than three-quarters of the public debt. Canadian production of automobiles and parts in 1930 almost equalled the annual interest requirements on the debt. The value of annual wheat and flour exports, or pulp and paper exports in 1931, are in excess of annual interest requirements. The same can be said of the revenues of Canadian electric plants.

The foregoing comparisons are not presented to minimize the national debt, but to bring out its relative proportions.

ing to Mrs. Koefed. The hostesses were Mrs. Hutcheon, Mrs. Egles, Mrs. T. W. Bates, Jr., and Mrs. Deshayes.

A general meeting of the Gleichen Athletic Club will be held in the Community Hall Club Room on Thursday, November 10, at 8:30 p.m. All members are requested to be present.

### Here and There

A total of 120 sailings to and from Halifax will be made during the coming season to the Old Country, the majority of which will be by Canadian Pacific steamships.

A rise in wholesale prices in Canada during September is considered to be one of the outstanding favorable events in the Canadian economic situation, according to a statement recently issued by the Department of Trade and Commerce.

Popularity of Canadian tobacco in the United Kingdom is increasing. For the eight months to August last, \$350,568 lbs. of Canadian tobacco valued at \$2,545,380 was exported to Great Britain as compared with 4,917,128 lbs. valued at \$1,429,832 exported in the same period of 1931.

The Canadian silver production in 1931 was approximately 20 1/2 million ounces, or 10.5 per cent of the world's computed production of 196 million ounces. Canada has for many years ranked third amongst the silver-producing countries of the world, being exceeded by Mexico and the United States.

New Brunswick is to stage the North American Cover Dog International Trials as an annual sporting event. Success of two days' trial concluded at Petersburg recently, has brought about formation of a permanent dog fanciers and owners association which has fixed dates for 1932.

### The Gleichen Flour Mill

Beau Ideal Flour was not named at random or by chance. It expresses the ambition of the management of the Gleichen Flour Mill to make a product of the highest excellence. That is what Beau Ideal means and what the flour really is. The essentials for making this flour are: Good machinery, good wheat, a good miller and thorough cleanliness. We invite inspection.

Photographs of Bangkok's shrines, temples, statues, and other places of interest in Siam taken during world cruises by Canadian Pacific liners, are being taken to Bangkok for King Prajadhipok by the Siamese Consul-General in Canada, who sailed for the Far East on the Empress of Asia recently.

Hon. Herbert M. Marler, Canadian Minister to Japan, left for Tokyo recently aboard the Empress of Asia after a two-month mission in Canada, strong in the belief that the Dominion is on the threshold of great trade developments in the East. With 500 million people in Japan and China, the possibilities, said the Minister, are incalculable.

China is on the eve of an era of tremendous development in railway expansion, engineering works and general trade, in the opinion of Major W. S. Nathan, chairman of the Pekin syndicate, who recently sailed on the Empress of Japan from Shanghai to Victoria en route for England. Rationalization and expansion of China's railways would be the first step in this expansion, he stated.

## Credit Means Debt

Much is being heard these days in criticism of Governments and banks and proposals of many kinds are advanced having as their object the "reform" of the banking system, the "curtailment" of the powers of banks, the "socialization" and the "nationalization" of banking, money and credit. The gold standard is attacked on the one hand and demanded on the other; bi-metalism is advocated; "inflation" is urged by many, while others argue that present inflation means ultimate "deflation" and future trouble. Drastic writing down of present indebtedness, even complete wiping out of debts, is demanded in some quarters, while others claim is a policy of "repudiation" and the destruction of future credit.

A sad looking specimen of the genus "holo" applied at the home of Chas. Thompson for a handout. The door was opened by Mr. Thompson, who happened to be at home at the time. Being short of help at the moment he said the tramp:

"Are you looking for a job?"  
"What kind of a job?" asked the Weary Willie.  
"Can you do anything with a shovel?"  
"Sure," was the answer, "I can fry ham on it."

The Gommers uniform this year will be white pants and blue sweaters with white stripes. The old outfit has served through two winters and as a result the sweaters look much the worse for wear and tear.

A couple of French-Canadians from Montreal enjoyed a swell breakfast at Charlie's restaurant and refused to pay for it. Cons. Bates picked them up in the west end of the town. J. E. Ostrander, J. P., gave them a month's solace in Leitch bridge where they are now hard at work.

Canada has a religious sect so small that the sect cannot reveal that it has not been calculated separately. Its members are known as the "Seven" and they live a very severe life. Men and women dwell apart; marriage is for-idden and they wear strict vestments.

Arthur Rendon of Calgary spent a short time here looking after his interests in this locality.

The Legion have planned to hold the annual memorial service in the Community Hall at 10:15 a.m., November 11th. All ministers will take part. Suitable music will be provided by the local band.

The western grain standards board last week completed its task of establishing the future and outward standards of grain for the crop year 1932-33. Return standards were set from No. 1 hard down to No. 6 wheat, while the export standards were set for grades from No. 1 hard down to No. 4 northern, there not being sufficient quantity of No. 5 and 6 to establish the outgoing standard. Flax receipts have so far been to small for standards to be fixed and this will probably be done at a later date.

Rev. and Mrs. V. M. Gilbert had over the week-end as guests at the manse Rev. and Mrs. D. Leitch of Drumheller.

Bank inspectors have been visiting the local branch of the Bank of Commerce for the last few days.

The dance sponsored by the Gommers last Friday night was not very well attended for some reason or other and as a consequence the boys rolled up a slight deficit. Those who attended enjoyed themselves immensely.

Somebody ought to tell the Canadian hen that there is a depression. The Canadian hen recognizes no bad times. She just goes on laying and her average output of eggs for this year will be 115 per hen. Multiplying this by the number of hens in the country, the rather startling total of \$64,682,477 down egg is reached. If those were laid end to end and then smushed they would make a lot of catfish.

Hallowell's passed off rather quietly in Gleichen. The younger folks enjoyed themselves immensely visiting the homes of different people and getting their bags and gills filled with nuts, candies, apples, etc. The older boys around 12 and 14 amused themselves gawking outbuildings. No obstructions were placed on the streets to impede traffic.

Canada grainery this year holds 163,000,000 bushels of wheat more than last year, as well as 14,000,000 more bushels of oats and greatly increased yields of other grain. Wheatmen generally in every province of the Dominion is feeling an impetus as a result of the transportation and marketing of the big crop of grain, but the effect in the prairie is very hard to estimate.

**"I Gotta Order More Robin Hood Flour"**

At this time of year flour bins are as bare as this youngster. It is time to lay in a supply of good, dependable Robin Hood flour.

Most women now know that the reason Robin Hood flour is so CLEAN and PURE is because the wheat is scrubbed and scoured in mammoth water washers before milling. Many, however, have asked this question: "Why is it I get bigger loaves and more of them from a bag of Robin Hood?" Here is one of the reasons:

When the wheat berry is ground in milling, dust and fibre are pre-ent. Between your thumb and finger this fibre feels like lint from a carpet sweeper. If left in the flour, it becomes a dead weight to the dough. Robin Hood Mills removes this fibre with an intricate system of silk sieves, some of them as fine as 125 meshes to the inch. Only the pure granules of flour pass through the sieves. . . . the dust and fibre is taken off and used for hog feed.

Dust and fibre present in CHEAP, poorly milled flours retard the action of yeast in the dough, resulting in small, flat loaves, heavy in texture and unappetizing in flavor. Robin Hood flour naturally goes farther in baking because it consists only of CLEAN, PURE flour granules—no dust, no fibre. When mixed in the dough, it responds to yeast gases readily and the bread rises high in the pans, producing more loaves of better bread.

Robin Hood flour protects your health and your pocket book. It is both safe and economical.

**STUDY THIS PICTURE— THEN THINK**

The difference in cost between CLEAN, PURE Robin Hood flour, and CHEAP, poorly milled flour is only 1¢ PER DAY FOR A FAMILY OF FOUR.
